INTRO

Animated heart-shaped logo is starting to form.

INTRO

We see elements of logo combining...

INTRO

... until they form full heart-shaped logo.

INTRO

Suddenly it starts to dissolve and few new shapes appear on the screen...

INTRO

... and form into a disability icon.

INTRO

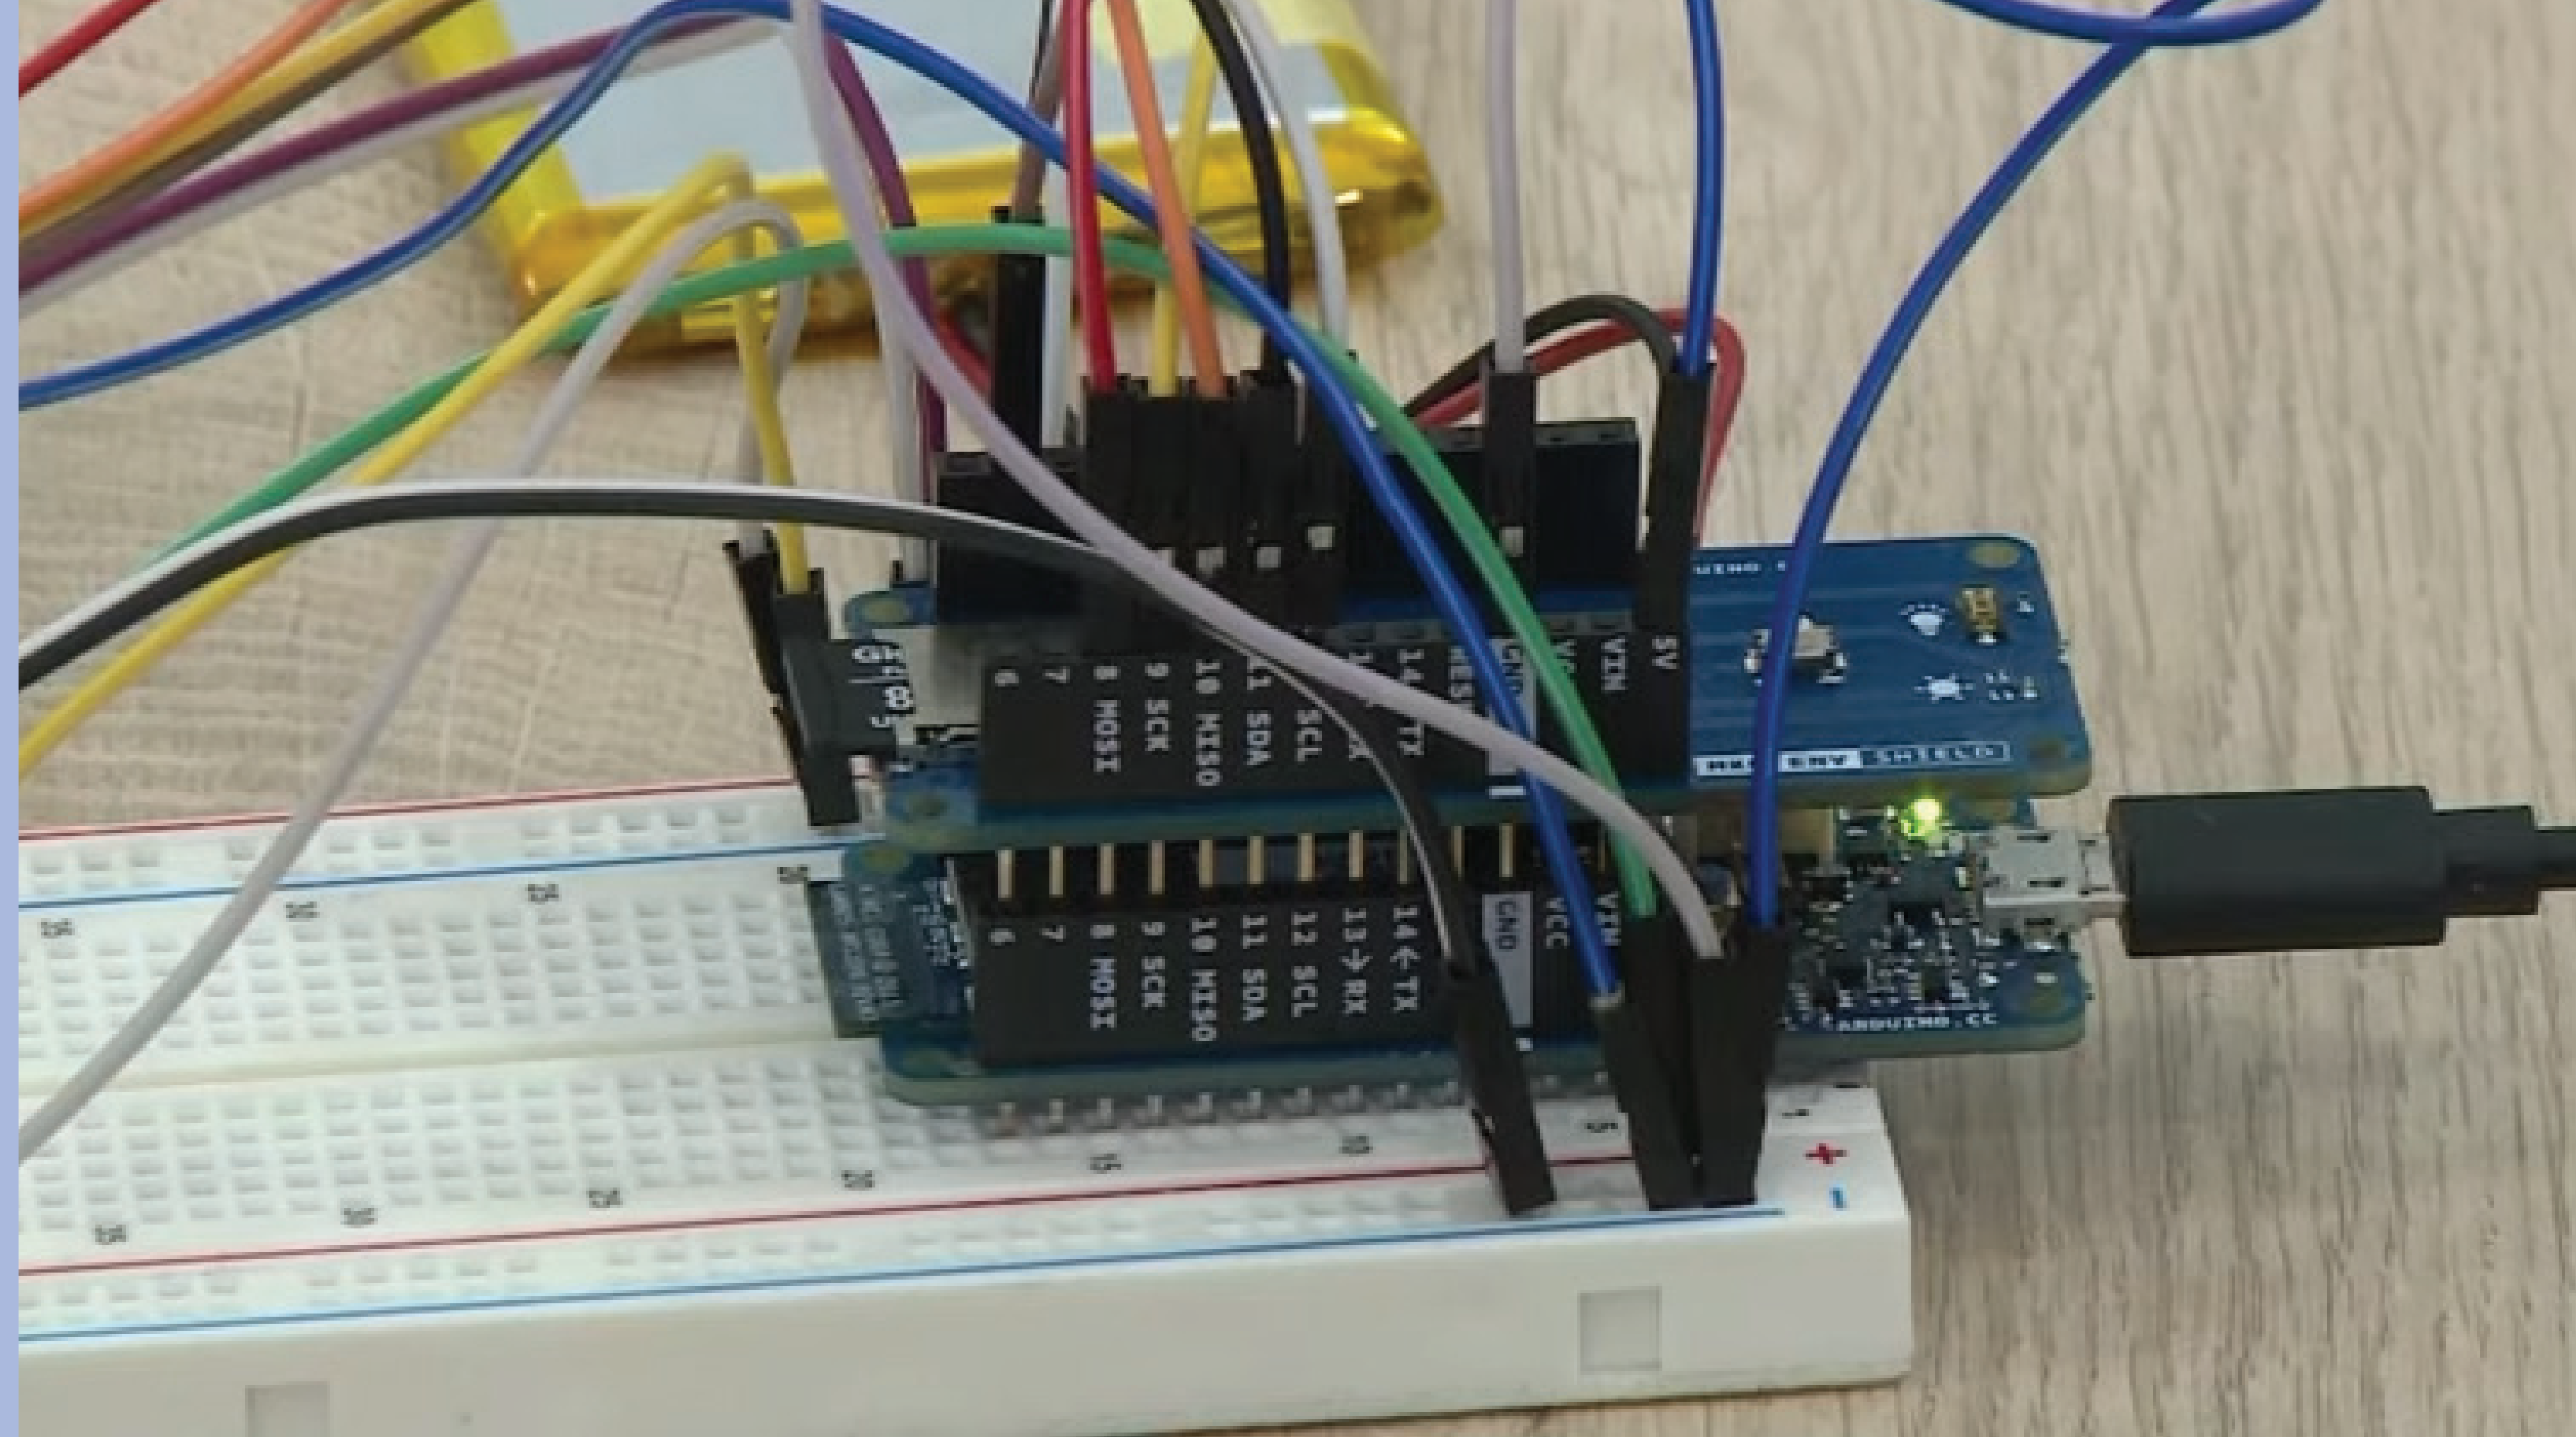

Illustration moves and reveals date and theme of the video.

**ANES
HADŽIOMEROVIĆ**
Mentor of the
BiH robotics team

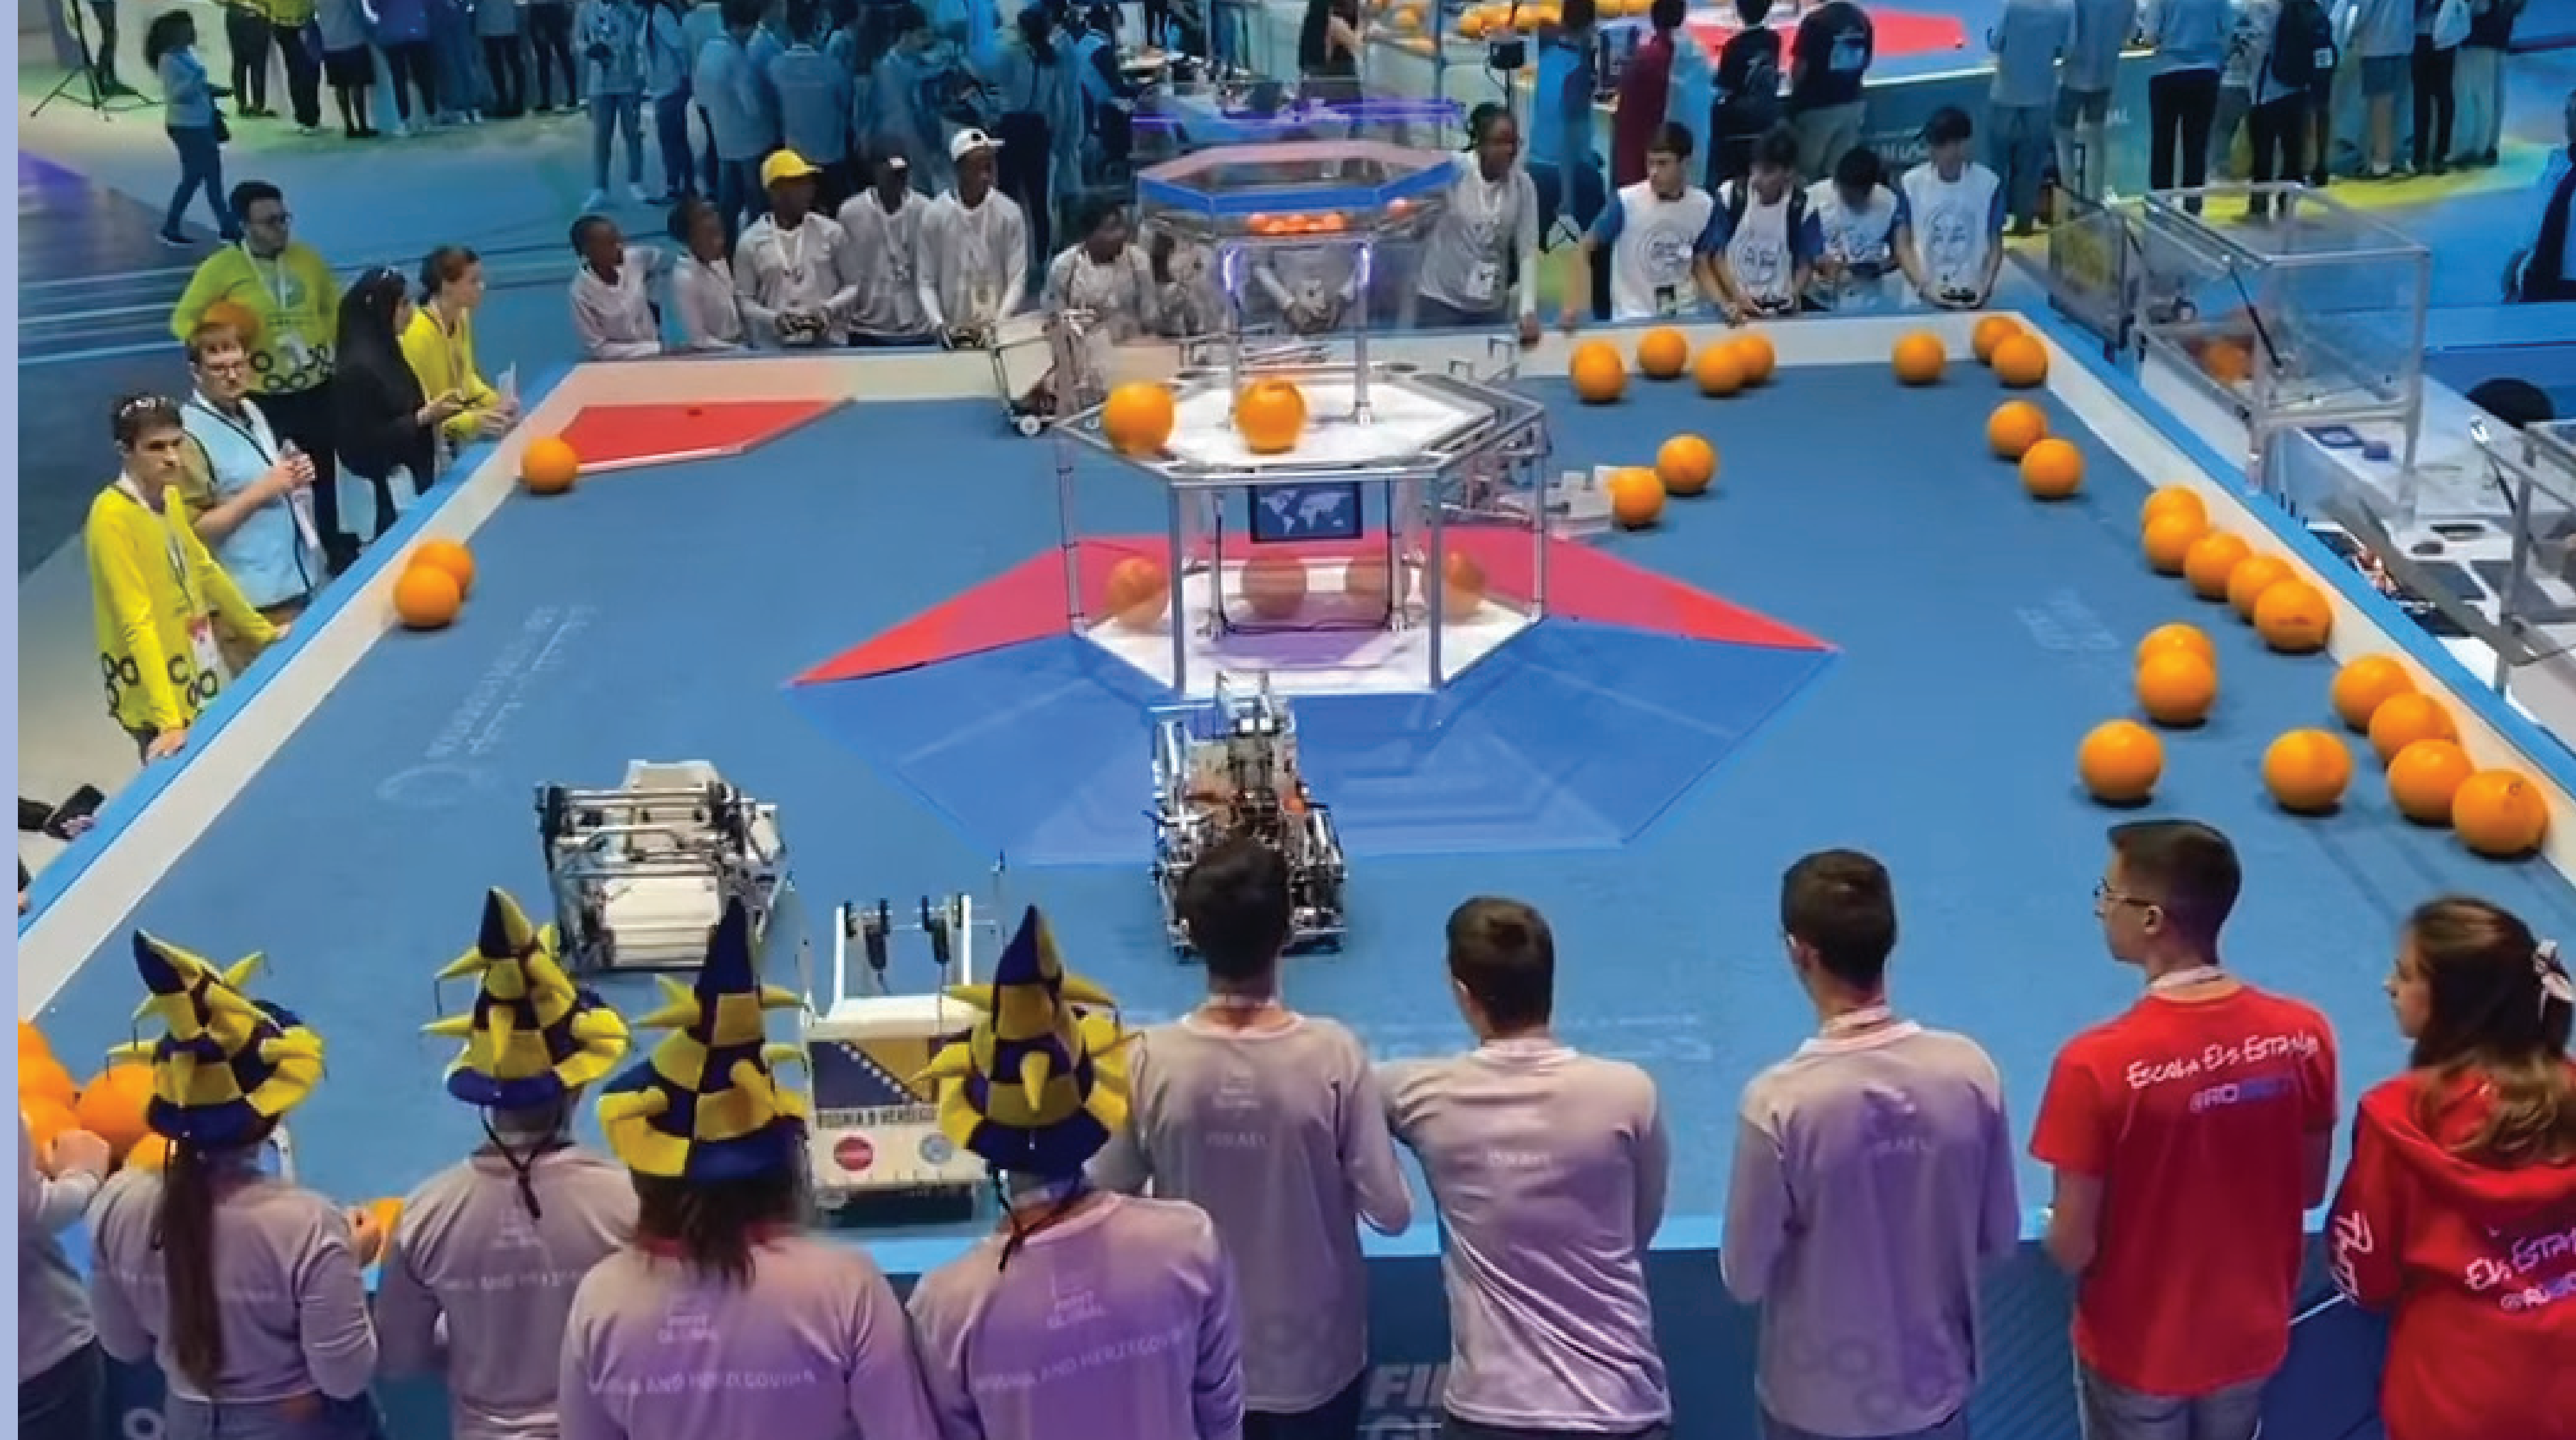

INTERVIEW STUDIO SETUP

I am Anes Hadžiomerović, mentor of the BiH robotics team.

international robotics competition.

Out of 177 countries, Bosnia and Herzegovina won the first place.

We gathered the winning team at the Center for Education, Robotics, Innovation and Technology in Mostar.

So far, about 350 high school students have passed through it, seven of which went to FGC.

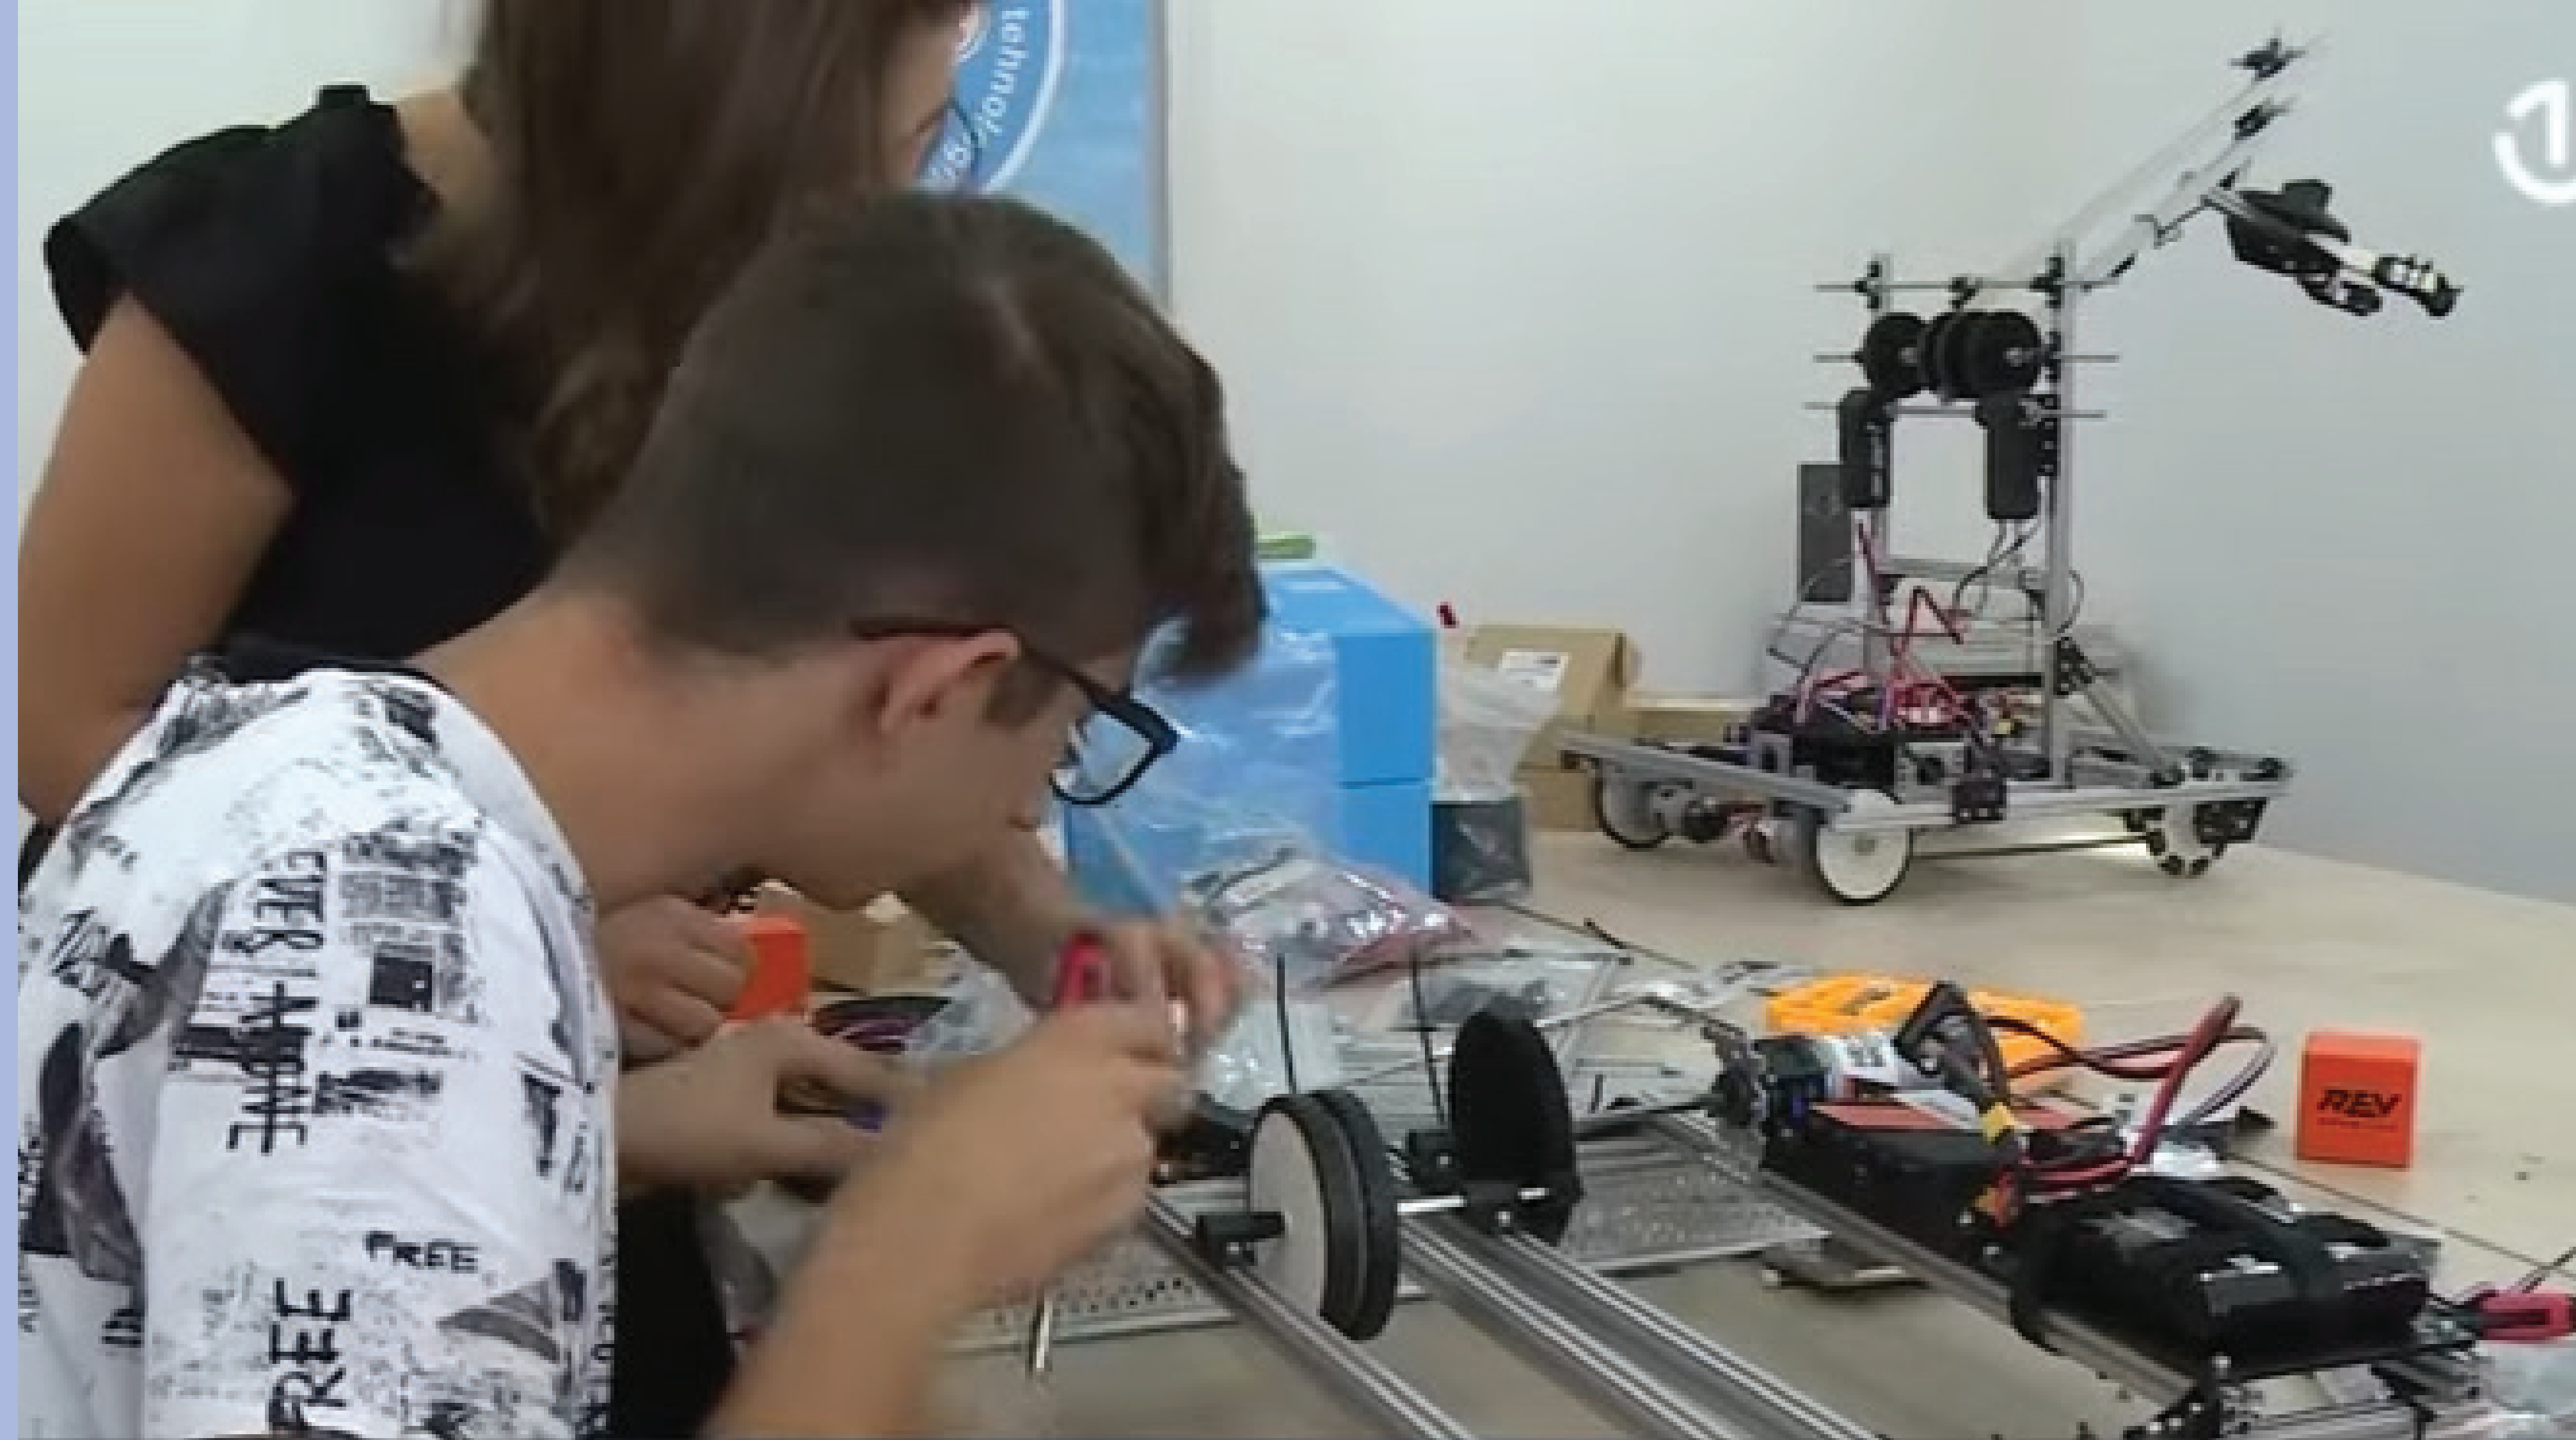

At the competition itself, they assembled and programmed several robots that transported cargo,

performed complicated automated movement or executed multiple measurements while attached to a balloon floating one kilometer up above the ground.

Automation and robotics is advancing in BiH. This trend will only intensify in the future.

Every industry will feel this change, and it is up to us to adapt.

We foster team work, cooperation and exchange of abilities between young people, as these are the capacities we need to face challenges posed by our global society.
